Reject the NAB petition 04-160. I pay for Satellite radio, so I should be able to listen to WHAT I want, WHEN I want and WHERE I want. The NAB is simply trying to get GOVERNMENT to do what they cannot - stifle innovation and artificially CONTROL the "FREE" MARKET. There are enough "protections" for NAB now. This is simply ONE MORE unneeded, unnecessary, ill-advised, ill-conceived, inefficient and ultimately COSTLY INTERFERENCE by government in the lives of the US citizens. STOP !
